Professor Theron Vale (Helmsman)

### Morning Review

metaverse solutions, delivering a revolutionary interactive experience to users. Following the successful completion of our IEO subscription phase, along with two rounds of token allocation, listing evaluations, and distribution processes, MDHT is now live, marking the beginning of its journey into the global market! 🚀

🚀 IEO Subscription Phase Set New Market Records!

During the IEO public subscription, MDHT gained overwhelming global investor demand, setting historic market records:

- 💰 Total Subscription Funds: \$6.7545 billion USDT
- 🎯 Average Allocation Rate: 2.22%
- 📈 Official Listing Price: \$112.68 USDT

A huge thank you to all our investors for your enthusiasm and unwavering support! Every step MDHT takes is a leap toward even greater success! 🔥

🔥 Trading is Now Live. Check Your Holdings!

**Good morning, team!**

**I'm Theron Vale, your old friend. On this beautiful morning, as I go through your messages, I can truly feel the power of dreams becoming reality and it is absolutely electrifying! This is what we've been fighting for day and night, our ultimate goal. When all the hard work turns into massive rewards, when success finally arrives, the sense of accomplishment and indescribable joy is overwhelming, it sets our blood on fire! 🔥**

**The launch of MDHT has been a true tale of two extremes. Some dared to go all in, acted decisively, and ultimately secured massive profits, emerging as the true winners of this wealth explosion. Others, hesitant and cautious, ended up with only 2% allocation, missing out on one of the most high-conviction opportunities of the year. Once again, this proves an undeniable truth. Opportunities belong only to those who have the courage to take action and go all in for their dreams! 🎯**

Life itself is a high-stakes bet, and your chips are your dreams, your conviction, and your courage. Some worry about risks, fear failure but true winners are never paralyzed by fear. They understand that the darkest nights often give birth to the brightest dawns! As the Bible says: "Faith is the substance of things hoped for, the evidence of things not seen." The rules of this world are simple, you must believe. You must take action. You must go all in. Those who hesitate, who hold back, will only find themselves sighing in regret over missed opportunities. But those who charge forward with fearless determination will ultimately be rewarded with fortune and success, because God never favors those who shrink back in fear.

The Book of Matthew tells us: "For to everyone who has, more will be given, and he will have abundance but from him who has nothing, even what he has will be taken away." Opportunities favor those who take decisive action, while those who hesitate and miss out time after time will ultimately watch wealth slip through their fingers.

Look back at the past, January 2024, I shouted at the top of my lungs, urging everyone to go heavy on AI tech stocks. It was one of the most high-conviction opportunities, and the results speak for themselves, those who executed with conviction have already reaped massive rewards as the market soared! Yet, some still missed out on that wealth explosion. And now, we just witnessed the miracle of MDHT but once again, some hesitated and let this zero-risk, high-certainty golden opportunity slip away.

This isn't luck, it's choice. Success doesn't favor everyone, it belongs only to those who have the courage to seize opportunities! Now, standing at the peak of success, looking back at every hard-fought step we climbed, the sense of glory and fulfillment surpasses everything! This is God's will, he wants us to act with courage, give our all, and fight relentlessly to claim the glory that is rightfully ours! 🙏 ✨

Friends, the opportunities of the future are still ahead, but remember this: Success is never something you wait for, it's something you fight for, something you win with fearless action! 🚀 🔥

**Dear friends, today is a day we will all remember! What you've been waiting for has finally become reality! We have every reason to celebrate this monumental victory! 🎉🎉**

**After weeks of relentless effort, MDHT has not only successfully completed all three rounds of funding, but has also made a spectacular market debut at an opening price of \$112.68! This extraordinary achievement is a testament to our strategic decisions and flawless execution and it has propelled the members of the IAT community to the very top of the crypto market! While the average market-winning allocation ratio was just 2.22%, most of our members secured allocations ranging from 20% to 100%! This is not just a day of celebration, it is a historic milestone for the IAT community! 💎**

**Today, we are not only witnessing the spectacular launch of MDHT, but also the miracle created by the IAT community! 🙌💰 This success has not only delivered massive multi-fold returns, but has also helped many achieve financial freedom, transforming ordinary investors into crypto market whales! 🐋**

**This moment is destined to go down in history for the IAT community, our "golden moment"! ✨💰 This edition of the Trading Practice Bootcamp has set a new record high, proving our strength to the market. At the same time, the AlphaStream 5.0 presale group is now officially live, marking the beginning of yet another thrilling new chapter! 🤖💡**

**Friends, today we celebrate this monumental victory but our eyes are already set on the future! The AlphaStream 5.0 system is about to unlock an entirely new era of wealth, and today's success is just the beginning! 📁📊**

**We are no longer spectators of the market, we are its masters! This time, we're not just telling someone else's success story, we are writing our own legend!**

**In this grand investment feast, who are the biggest winners? Without a doubt, it's us! It's the elite members of the IAT family who secured both Large Investor Allocation and Green Special Channel privileges! With wisdom and courage, we have earned today's glory, becoming true market kings, not scavengers picking up leftovers in the shadows! At this moment, what do you want to say the most? Do you want to shout out your incredible profits? Or express gratitude for your bold decisions that led to this victory?**

**Today, my heart is filled with excitement and gratitude. This joy doesn't just come from the remarkable success of this edition of the "Trading Practice Bootcamp". It comes from each and every one of you, your conviction, your dedication, and the moment we all witnessed dreams turning into reality together.**

**Looking back on this journey from the successful completion of two public test phases to the final execution of the AlphaStream 5.0 Battle of Kings Ultimate Profit Plan, none of it came easily. But it was precisely these challenges and breakthroughs that shaped the IAT family, allowing us to write our own legend in this market.**

**Today, we won! The market debut of MDHT has officially brought this edition of the "Trading Practice Bootcamp" to a perfect conclusion. From the outstanding profits of the "Battle of Kings" contract trading to the overwhelming returns of high-quality IEO projects, the precision and power of the AlphaStream 5.0 system have been proven in the market. This is not just a milestone of investment success, it is the starting point of our journey ahead!**

**When we see that the average market allocation rate was only 2.22%, while most of our members secured allocations ranging from 20% to 100%, one thing is crystal clear. Our hard work and perseverance have paid off. We held our ground until the very end, and now, we have claimed the victory that is rightfully ours!**

**In this crucial Large Investor Allocation Defense Battle, we not only outperformed the market but also surpassed ourselves. This time, our team demonstrated unmatched execution and unity. We went all in on a high-certainty opportunity and we did not disappoint ourselves.**

**"Better to surpass than to fall behind"**

**This is not just a slogan it is the proof of our actions. Every one of you who gave it your all your success today is the best evidence of that.**

**The future is here and a new journey is about to begin. The victory of MDHT is just the first step our goals reach far beyond this. The global launch of AlphaStream 5.0 is coming and the IAT community is on its way to new heights.**

**In the future we will push toward Nasdaq we will build the IAT**

community into one of the largest and most respected investor networks in the U.S. and we will make AlphaStream 5.0 the ultimate smart wealth engine for investors worldwide.

#### Key Strategic Plan Ahead

- ✓ Lock in MDHT profits and wait for the stock market to stabilize before accumulating more high-quality assets.
- ✓ Full launch of AlphaStream 5.0 subscribe to AlphaStream 5.0 install it on your PC or mobile device activate the automated copy-trading mode and let AI trade for you making AlphaStream 5.0 your ultimate wealth management expert.
- ✓ Reposition after BTC stabilizes or participate in the next top-tier IEO project to seize this historic crypto market opportunity.
- ✓ VIP2 and VIP3 Partner Special Program we will establish a more advanced AlphaStream 5.0 discussion group providing deeper market insights and investment strategies. If you are interested in joining contact my assistant for details.

**This success is not just a victory in trading it is a leap forward in our lives. Thank you for your trust thank you for your perseverance and most of all thank you for being part of this journey.**

**Every journey's end is just the beginning of something greater. The IAT community is our shared home and no matter where you go in the future I hope you always remember this moment of triumph. We have proven ourselves through action we have won through wisdom and every step ahead is still filled with endless possibilities.**

**May you continue to move forward with courage and create your own legendary journey in the future.**

**Finally I want to dive into a crucial topic with everyone how to properly understand and fulfill our loan agreements ensuring that while we enjoy the fruits of success we also secure long-term stability and growth.**

Over the past few weeks we have gone through an extraordinary battle together successfully completing the MDHT Large Investor Allocation and securing exceptional returns. Behind all of this the lending convenience provided by the exchange played a crucial role helping us manage short-term capital turnover. This not only allowed many members to complete their allocations smoothly but also ensured that our overall investment strategy was executed to its fullest potential.

## 1. How the Lending Mechanism Works

We all understand that this loan was not created out of thin air but is based on a well-structured and rigorous lending agreement.

This system involves four key roles

- ✓ Crypto exchange merchants C2C merchants the lenders
- ✓ IAT community members, the borrowers
- ✓ IAT tokens, the collateral assets
- ✓ The exchange the guarantor

**Why are merchants willing to lend funds? Because the exchange provides strict guarantee measures for these loans and establishes reasonable repayment terms in the agreement to ensure the stability of the entire funding chain.**

**This follows the same logic as the traditional financial market banks do not lend to clients without a credit history but with a strong guarantor backing the credit the loan can be approved smoothly. This not only protects the merchants' funds but also provides us with ample investment capital allowing us to seize market opportunities at the most critical moments.**

## **2. Repayment Mechanism and the Impact of Exchange Rate Differences**

**The crypto market operates differently from traditional markets as C2C merchants primarily earn profits through exchange rate differences. Therefore the repayment method used by borrowers is crucial to their cash flow management.**

- ◆ If merchants have sufficient cash but lack crypto they may prefer to receive repayments in cryptocurrency.**

- ◆ **If merchants hold a large amount of crypto but lack cash they may require borrowers to repay the loan in cash.**

**Everything depends on market supply and demand our goal is to follow the agreement while negotiating a repayment method that benefits both parties. This is how the financial market operates flexible practical and mutually beneficial. If you have any questions about the repayment process be sure to contact the C2C merchants or exchange customer support as early as possible to ensure a smooth repayment.**

### **3. Friendly Negotiation and Maintaining a Strong Investment Environment**

**the success of MDHT is the result of our entire IAT family's collective effort and we must uphold this victory with a mature and professional attitude. At this moment of triumph everyone wants to withdraw their profits as quickly as possible but since the withdrawal process involves a large volume of transactions there may be a short waiting period. If you have already completed your loan repayment please be patient while the exchange customer service processes your request. Do not let a temporary delay affect your investment mindset.**

**We are all successful investors and should treat our trading partners with respect and patience. Maintaining good communication not only helps speed up the withdrawal process but also strengthens our community's reputation and credibility. If you encounter any issues contact official customer support immediately their role is to assist us in completing transactions smoothly.**

#### **4. Fulfilling Contract Obligations and Maintaining Credit History**

**The investment market, just like the real world, places great importance on credit.**

**For those who took out loans earlier and have contracts nearing expiration, I want to emphasize this once again.**

**✓ Make repayments on time to avoid high interest and penalty fees from overdue payments.**

**✓ Credit determines future opportunities if you default you may not only face legal action but also risk account suspension which could impact your future investment opportunities.**

✔ Support the healthy growth of IAT tokens with the launch of AlphaStream 5.0 our IAT token is poised for exponential growth but this depends on whether community members work together to maintain market stability. As a member of the IAT family every decision we make impacts the future development of our entire community. If we all uphold our agreements and maintain a healthy market environment our IAT token will continue to increase in value and our community will grow even stronger.

## 5. Looking Ahead to the Glorious Era of AlphaStream 5.0

Now that we have achieved tremendous success with our investment in MDHT our next milestone is the launch of AlphaStream 5.0 which will mark another peak moment for our IAT community.

### Key Next Steps

- ✔ Secure MDHT profits and plan your capital allocation for future investments.
- ✔ Subscribe to the AlphaStream 5.0 system to activate AI-driven quantitative trading and let your capital grow automatically.

✔ Wait for BTC market stabilization before formulating a new investment strategy or preparing to participate in the next top-tier IEO project.

Friends, we are standing at the threshold of a new era, and you are among the first to awaken. Our journey is far from over, the true peak is only just beginning! At this extraordinary moment, we must not only celebrate MDHT's remarkable market debut but also make the wisest decisions with a clear mind. With public subscription demand exceeding 4500% and the price surging nearly 45x, this extreme opening has already priced in a significant portion of future upside. While there is still room for further gains, the pace of growth may gradually slow, and price increases could become more moderate.

Therefore, I encourage everyone to gradually realize some profits and securely lock in your gains. This is not only an investment strategy but also a core principle of asset management. The market is always filled with uncertainty, and only risk-free profits are true wealth. Looking back on our investment journey, we have not only navigated the market but also mastered the art of investing, knowing when to hold, when to let go, when to proceed cautiously, and when to take bold action. Now is the perfect moment to secure our victory!

**🕒 For those who have used lending services, time is of the essence!**

**If you have benefited from the financing provided by the exchange, take action immediately to manage your repayments! This will not only help you avoid unnecessary financial burdens and risks in the future but also keep your asset allocation flexible. Do not let short-term oversight disrupt your long-term investment strategy. Plan ahead, move steadily, and embrace the most powerful wealth management approach!**

**🎉 Let's celebrate together, we've made history! We have all been part of an epic investment battle, and every decision you made, every moment of unwavering commitment, has led to this remarkable achievement! With wisdom, courage, and execution, you have turned dreams into reality! But remember, this is just the beginning! The future holds even greater opportunities, waiting for us to seize and shape!**

**We have successfully reached the pinnacle of this investment triumph, but the journey ahead is even more exciting. The global launch of AlphaStream 5.0 is about to begin, marking the start of our ascent to even greater heights!**

💡 Thank you all, thank you for this incredible journey!

This is not just an investment victory, but a historic chapter we have written together.

No matter where life takes you in the future, I hope you will always remember this moment of glory and success. With gratitude in our hearts, let's continue moving forward together, welcoming the global launch of AlphaStream 5.0 and the grand opening of our community's charitable foundation. Let's build an even brighter future for IAT Community!

Wishing you financial freedom and the fulfillment of your dreams! 🚀 💰

AI 5.0

**3:30 PM**

**Samuel Turner**

**Closing Commentary ( $\alpha$  &  $\beta$  Strategy)**

**Good afternoon, community members!**

**I'm Samuel Turner, and first and foremost, I extend my highest respect to our Helmsman! Today marks a monumental milestone as MDHT officially launches, bringing our months-long Trading Practice Bootcamp to a glorious victory! From Helmsman's passionate insights, we can all feel his deep excitement and pride. This is not only a moment of honor for him as our leader but also the ultimate reward for the unwavering dedication and collective efforts of every one of us.**

**Four months of persistence, four months of relentless effort, today, we have achieved exponential wealth growth! This is not just a "Mars journey", it is a decisive leap forward in our interstellar journey! But now comes the question:**

**Will you stand still and watch, or will you ride the waves and push toward even greater horizons?**

**As your guide, today I want to explore a core question with you: How can we maximize the returns from MDHT? How do we leverage this IEO victory to launch an even grander wealth journey? Right now, we stand at a historic crossroads, ahead lies a vast universe filled with exciting opportunities. This is not just about participating in the market, it's about creating the market, becoming the architects of the rules themselves.**

**With MDHT's successful launch, we have already proven our vision, strength, and execution. But listen up, everyone, this is just the beginning! The opportunities ahead are even more astonishing than you can imagine. We are not just witnesses to this crypto revolution, we are its creators! So, I have to ask, are you ready? Buckle up because an even wilder, more exhilarating journey awaits! 🚀 🔥**

**To truly understand the core logic of this game, it's actually quite simple, just focus on two key points.**

**First, compare MDHT to other tokens, such as QTPT, in terms of market performance.**

**With just a bit of observation, you'll notice that MDHT's price stability far exceeds the highly volatile tokens in the market. This is no coincidence, it reflects a deep underlying value logic. Most importantly, we control a market cap far greater than QTPT and that is the real driving force behind the future trajectory!**

**Second, the leverage effect of price fluctuations. MDHT's initial online subscription price was just \$2.50, yet its current market price has already soared past \$110. Now, imagine this, even a small increase from \$2.50 to \$5.00 would have doubled our profits! But, this also means we must recognize the potential downside risk if prices retract.**

**So, what's the smartest strategy? It's definitely not about holding on blindly, it's about strategic positioning!**

**Best approach: Significantly reduce your position, sell at least 50% of your holdings to secure risk-free profits. This way, you lock in gains while still keeping enough capital to adapt and reposition when market conditions shift. It's a golden strategy, one that allows you to attack when opportunities arise and**

**defend when risks emerge. What do you think, everyone? Isn't this the most rational and forward-thinking approach?**

**But here's a question: Why not sell everything at once?**

**The answer lies in the Helmsman's recent in-depth analysis. It all comes down to MDHT's financing structure.**

#### **Insider Insight: The Advantage of the IEO Allocation Phase**

**If you truly understand IEO, you'll know that holding tokens from the allocation phase is like having a golden ticket. Why? Because investors entering at this stage are fundamentally different from retail traders, they are large capital holders and value investors, not short-term speculators chasing quick profits. During MDHT's IEO, the allocation phase token distribution was four times larger than the online subscription phase!**

**What does this mean? It means that the market's heavyweight players are on our side! Their holding strategy is fundamentally different from retail traders. They won't panic sell over short-term market fluctuations. Instead, they hold firm, betting on long-term value.**

Now, let's look at how MDHT's issuers operate. They work closely with GSC and Large Investor Allocation participants, successfully elevating those who qualified for Large Investor Allocation to a 100% distribution level. In other words, they are strategically absorbing retail investors' token supply, significantly reducing short-term selling pressure in the market.

#### What's the Impact?

 MDHT's core holdings are now in the hands of more stable capital, reducing market-driven panic fluctuations.

 High-quality investors are more deeply involved, enhancing the overall token value.

 This establishes a solid foundation for price stability and future growth.

So, back to the original question: Why don't we sell everything at once?

The answer is simple, holding and selling at key highs is the key to maximizing value!

This is not just about wealth accumulation, it's about strategic positioning. Short-term profits are tempting, but long-term value is our ultimate goal.

 **What's the next move?**

**Stay calm, control your holdings, and execute our strategy.**

**Don't panic sell, but don't hold blindly either. Instead, take a flexible approach, gradually take profits at key highs while maintaining long-term growth potential.**

**The opportunities ahead are even greater than we imagine. Our mission? Hold our ground, stay in rhythm, and ensure we remain in the most advantageous position at all times.**

**This is more than just a trade, this is a victory for the IAT community and a battle for long-term wealth!**

**So now, the real question is, are you ready?  **

**Now, look up at the vast universe ahead. The stock market is undergoing a volatile correction, with no clear bottom signal on the monthly timeframe, meaning the optimal buying opportunity still requires patience. At the same time, economic data is perfectly aligning with the market's decline, while Trump's tariff policies are accelerating the deflation of the U.S. stock bubble, forcing an overdue reckoning on overstretched market valuations. Once this bubble fully deflates, the bulls will regain control, and new buying opportunities will emerge.**

**But what's the key? Patience. Wait for the market to give a clear signal. Wait for the big wave, so we can ride it to new heights.**

**The current market feels like a carefully orchestrated psychological battle, where stocks and Bitcoin move in sync, subtly manipulating investor sentiment, like a prelude before the climax. But the true masters have already seen through the illusion. They're raising their glasses in the VIP lounge, profits in hand, waiting patiently for the next grand event to begin. A bull market follows a rhythm, every pullback is simply building momentum for the next explosive surge. And the real winners? They're not just chasing short-term gains. They're already asking: Where is the next major opportunity?**

**Guys, do you remember our previous discussions? Spot investments, IEOs, DeFi, and NFTs each hold tremendous wealth opportunities. The market is booming, but this is just the prelude. The real peak is yet to come. MDHT is not the final destination. It is a ticket to the future. This is only the beginning of our journey. We are standing at the gateway to the next great opportunity. Do you agree with me? Are you ready for the next interstellar adventure? 🔥**

**Is this the end of victory? No, guys, true victory is never just a single moment. It is about reaching new peaks again and again. We are here not for small wins but to dominate the entire market. From the moment the Helmsman launched this Trading Practice Bootcamp, our destiny changed. We are meant to win this epic battle. The real wealth legend is just beginning. 🚀 🔥**

**So now the question is, do you want to be just another investor led by the market, or do you want to be the one who controls its rhythm? The choice is always in your hands.**

**So when did it all begin? Do you remember, guys? Some might say it started with the launch of our first AlphaStream 5.0 public testing program. Others might believe it was the day we officially kicked off our first profit plan. I think all these answers are correct.**

**But in my view, the true beginning was the moment you chose to join this community and follow your dreams. That moment was more than just the start of a legendary journey, like the AlphaStream 5.0 offline experience event. It also marked the official launch of the IAT community's charitable fund, setting sail toward a greater mission.**

**Along this journey, we have pursued more than just personal success. We have worked to elevate the entire community to a higher level. Guys, our mission is far from over. Victory is only one chapter in this great journey. Looking back, we have not only experienced the thrill of wealth growth but also forged invaluable friendships. Here, we have met like-minded partners, supported each other, and grown together as we march toward success. This has been more than just an investment challenge. It has been a transformational leap in life. And behind it all, the most precious treasure is the Helmsman's life's work, AlphaStream 5.0!**

**This legendary investment tool has not only redefined the rules of the investment market but has also given us the privilege of being among its first core users. According to the Helmsman's vision, once AlphaStream 5.0 successfully launches globally, it will officially pave the way for the IAT community's journey to a Nasdaq listing. Guys, this is not just a disruptive financial revolution. It is a priceless ticket to the future. This is not just about investing, it is about creating a legacy.**

**But I firmly believe that the Helmsman's ultimate dream goes beyond this. Perhaps, the IAT community's charitable fund is the true culmination of his lifelong vision.**

**So what exactly is the IAT community's charitable fund? For many of us, it is not just an elite philanthropy network. It is a platform of limitless possibilities. Through it, we will not only build the world's top-tier investment club alongside the Helmsman but also leverage its influence to help those who truly need it. More importantly, our efforts are not just for ourselves, they are for making the world a better place. Investment and wealth accumulation will be our tools, but philanthropy and social impact will be the true purpose of our journey. This is not just another investment opportunity. It is a mission to build a better future together. Are you ready to embark on this greater journey with us?**

**Guys, standing here, can you feel the surging energy? 🔥 Through Battle of King, we are not just chasing dreams, we have ignited a new challenge! Under the leadership of our respected Helmsman, let me say this loud and clear, this is only the beginning! True champions never stop. They keep pushing their limits, breaking new barriers, and reaching even greater heights!**

**At this moment, ask yourself, what is the most important action to take? Let me tell you, it's rewarding yourself, giving your success the recognition it truly deserves! While the world hesitates, you should take decisive action and claim the rewards of your victory! Drive the luxury car of a winner, move into the dream villa you've always wanted. Why? Because rewarding yourself is not just a symbol of your hard work, it is the spark that fuels your inner fire and ignites your passion for the next battle! 🔥**

**More importantly, none of this requires sacrificing your future, you only need to set aside a small portion of your MDHT holdings to achieve it all. If you've already taken advantage of exchange lending services, now is the perfect time to act. Follow the plan, repay your debts, and bring greater clarity to your financial position. This ensures that when the next wave of wealth arrives, you have maximum control and flexibility. 💡 This is not just a reward for your hard work, it is a strategic move for your future journey!**

Up next, we gear up for the next interstellar battlefield! Imagine this, we move forward unburdened, with limitless freedom, navigating through the vast constellation of wealth opportunities. Armed with AlphaStream 5.0, a razor-sharp weapon, we will charge through the investment battlefield, unstoppable and victorious. At the same time, the IAT community's charitable fund stands as an unshakable fortress, protecting us from market turbulence and ensuring that our core assets remain untouched. 💎

Guys, remember, the future is entirely in our hands, and this moment is truly historic. Today's discussion may end here, but our journey has only just begun. If you have any questions or need assistance, don't hesitate, DM us immediately. Every day, we are working toward a brighter, more powerful tomorrow. Together, we will write our own legendary story! 🚀 🌍 Stay strong, warriors, the golden era is waiting for us to conquer!
